

Here's more power for your Club

TO the Owners of the Major Leagues baseball world

in This supposed to be the Land of the braves
and the Home of the free

Greetings:

Its a matter of vital record now respecting the baseball players of every race being employed in all leagues, because Judge Landis has spoken and uncovered the men responsible for barring Negroes from Major and minor leagues.

It is said the Owners and Manager of the Chicago Cubs of 40 or 50 years ago struck down the last Negro player from Major league playing in Boston, by refusing to take the field with the Boston Club until the said Club benched its Star Negro player, after that all the other Clubs fell in line with this damnable undemocratic practice.

NOW the owners of the Pittsburg Nationals supported by Judge Landis has decided to clean its self by giving our stella players a chance to come back to the Majors, And Gentelmen, that is all they want is a chance, and they will prove to everybody that they deserve a place in the sun of baseball just as in other sports

One bunch of lies you owners has allowed to captivate you perhaps was born in the South is the following (and quote, Negroes are barred because they can not eat and sleep and travel with the)White boys who are from the (South) Germany, Italy, Russia, Japan and othe enemy races to Democracy) My answer to these lies, Negro baseball players do not ask these privilages, They detest them 100 per, all they desire is to meet these poluces on the playing field and show them how baseball should be played. right here in Newark

on the Negro Eagle team we have in Willie Well the best playing and hitting player in baseball if you dont beleive it come over next Sunday to Rupert Stadium at 2 P.M.

MR. Perce the First baseman is just as good as the best you have in the Majors a slugging and playing fool. and MR. Day and Mr. Mr. Manning are great righthand pitches who can Home run with the bat any time.

Another lie some Owners are telling now, is this lie (It will hurt or destroy Negro league baseball. Well I will ask those Gents WHY the small white league's are not destroyed when they lose their Stars to the Majors.

I fear the Club owners and managers of the Major League's Clubs are still on the wrong side of Justice and are just like most of the White South in regards to this World war, they would rather lose the war than to give the Negro his rightfull place.

Well I will say this to all such men, you are a Fifeth Commest playing into the favors of Hitler and Japa. and lose the war, yes, unless the American Negro soldiers get in front and run the Germans and Japs into the Sea and back home, pin this.

let the ~~Say~~ Negro haters say what they will, we are the best friends the American white man have, our trustworthy history in North America since being invited here by the Fathers of this new world, a history that can not be matched by any race, in peace time and and the bulwark in war. the best citizen the best Soldier, think on these things Gents.
